**Dear Soham Patra,**

On Jan. 9, 2026, 2:29 a.m. support@dataseamart.com wrote:

Hello,

Thank you for contacting us.

We have checked your website, and it appears that the SSL certificate you purchased (ZeroSSL ECC Domain Secure Site CA) has expired.

To resolve this issue, please provide us with a new SSL certificate. Once you share the updated certificate with us, we can assist you in configuring it on your server so that your website functions properly again.

Please let us know if you need any guidance on obtaining or generating the new certificate.

Looking forward to your reply.

Best regards,

Queta
